

Rhinoplasty Solutions

Ronald P. Gruber, MD, has designed and selected a variety of instruments for use in most rhinoplasty procedures, available only from Padgett Instruments. A full description of this set and its components can be obtained from your Jarit representative or by visiting www.Integra-LS.com.

Dr. Gruber, a recognized leader in rhinoplasty procedures, is a founder of the Rhinoplasty Society and has published over 50 articles in scientific journals. Currently, he is a Clinical Assistant Professor at the University of California, San Francisco and a member of the Adjunct Clinical Faculty at Stanford University Center.

The set can be purchased complete or as separate components. Dr. Gruber does not profit from sales of the set; all royalties are donated to PSEF (Plastic Surgery Education Foundation).
